

Please answer the following questions and send back to us (email or fax) prior to your first appointment. This information will allow more time dedicated to the exam, treatment planning, and answering questions.

Your name:	Email:	Date:
Pet's Name:	Date of Birth:	Age:
Breed:	Neutered or Spayed:	Sex:
Please tell us what brings you in to CRCG (presenting concern for your pet):		
When did you first notice this problem?		
Has the problem progressed, stayed the same, improved, or waxed and waned?		
Any other medical history of concern such as illnesses, surgeries, injuries, or cancer?		
What diagnostics have been performed (radiographs/x-rays, blood work, ultrasound, MRI, CT, etc)?		
Have any treatments been started or tried such as rehab, laser, acupuncture, or chiropractic therapy?		
What is your pet's current activity level? Any activity restrictions? Please include daily activities such as walks, dog park visits, playing in the yard, etc.		
What was your pet's prior activity level before the presenting complaint?		

What medications and/or supplements is your pet currently taking? Please include dosages and frequency.

What is your pet's diet? Does your pet have a good appetite? Any table scraps or treats? Any allergies or food sensitivities?

Does your pet have any difficulty urinating or defecating? Is he or she able to squat or lift leg normally to urinate and defecate?

Does your pet exhibit any urinary or fecal incontinence? In other words does he or she have accidents that they are not aware of?

On a scale of 0 to 4 (0 being non-painful and 4 being the most painful) how painful is your pet?

Please describe what pain behaviors your pet exhibits? (For example, crying, licking, panting, limping, or restlessness).

Any change in your pet's mood or behavior?

Does your pet's pain or lameness change with weather, exercise, or rest? Please describe.

Please describe your pet's environment and if there is any difficulty moving around the home. Include type of floors, stairs, furniture to climb, yard, and/or dog door.

Is your pet restricted or free roaming when you are gone?

Is your pet walked on leash only or off leash?

Any other pets?

Most important question: What are your goals for your pet?

Is your pet human or dog aggressive? Does your pet have anxiety?
