

CANINE WHOLE BODY SUPPORT

Many dogs have a diet limited to highly processed pet foods. Supplements made from whole foods, organ and tissue extracts, and botanicals can fill the nutrition gap created by feeding processed foods.

Canine Whole Body Support:

Provides general multisystem support for daily maintenance of all body systems with emphasis on a healthy endocrine system and is an excellent nutritional foundation for use with all other system-support formulas.

Indications for Use:

- Daily multivitamin/mineral supplement for any patient
- Growing animals
- Performance/working animals
- Endocrine system support
- Pregnancy/lactation
- Senior animals

How to Administer

Based on body weight, the canine patient should receive the formula according to the following recommendations, or as otherwise directed.

1-10 lbs	1/8 teaspoon once per day
11-20 lbs	1/8 teaspoon twice per day
21-40 lbs	1/4 teaspoon twice per day
41-60 lbs	1/2 teaspoon twice per day
61-80 lbs	3/4 teaspoon twice per day
>80 lbs	1 teaspoon twice per day
