

Enhances quality of life and improves mobility for all dogs

- **Outdoor Uses:**
allergy prevention,
heat/cold protection,
and wound/injury
protection

- **Traction on
slippery surfaces
for dogs of
all ages/sizes**

PowerPaws™ are economical, durable, and fit virtually all breeds and sizes. They are lightweight, breathable, and comfortable. They do not require Velcro or buckles to stay on, and dogs don't mind wearing them. PowerPaws™ are easy to care for and can be machine washed and dried (cool temp, or warm to shrink a little).

WHAT PEOPLE ARE SAYING:

"Power Paws give my Yorkie Bear confidence to walk on our tile and hardwood. She looks adorable, and she has the traction to keep up with the kids!"

"Our Collie slides on our new hardwood floors. With Power Paws, he has the confidence to move where he wants, when he wants!"

"Power Paws keep my dog's feet warmer and my house cleaner. What a fun and practical product!"

"Sam has allergies. We now wear Power Paws outdoors, and when we get home, I remove them and toss them in the wash. No more allergies, no more licking his pads, and no more meds!"

Power Paws™

Uses and Applications:

**The Power to Stand
The Power to Stop
The Power to Go!**

For Medical Needs:

Indoors, use Power Paws for orthopedic injuries, rehab, plus dermatitis, granuloma, neurological, and spinal issues. Outdoors, use for protection from allergies, heat, cold, salt, and snow. Suggested use is socks on all four feet.

For Traction:

Dogs with hip dysplasia and arthritis need traction. Power Paws give dogs the power to stand, the power to move, and the power to stop!! This translates to quality of life! Suggested use is on the back feet only or on all four feet as needed.

For Mobility:

Senior dogs often lose confidence and ability to get around on hardwood, tile, and linoleum floors. Power Paws make movement easier for dogs of all sizes and breeds - increasing quality of life for your pet! Suggested use is socks on all four feet.

For Outdoor Use:

Power Paws are quite useful outdoors too! For snow use, spray a few coats of waterproof spray on the socks, let dry, and go! For extreme heat applications such as desert pavement and sand, a waterproof spray may provide some additional protection against wear. Suggested use is on all four feet.

For Protecting Floors:

Dog's nails scratch hardwood floors, and refinishing is expensive and inconvenient. Power Paws provide a layer of protection between the dog's nails and the floor - eliminating (additional) scratches. Suggested use is socks on all four feet.

For Fashion:

All dogs enjoy looking good on occasion, and some dogs dress up daily! Power Paws come in colors and designs that compliment every dog's style and personality. Suggested use is on all four feet.

For Cleanliness:

Clean dogs always find a way to get their feet dirty soon after grooming. Power Paws keeps feet clean, and warm. Suggested use is socks on all four feet.

Other Uses:

Power Paws protect dogs from running into, and sliding into, cabinets. This works in a home, and in moving vehicles like boats and RVs. Additionally, Power Paws keep dog's nails from poking through leather seats in a car.
